

Attorney Docket: 2872P-00260
Serial No.: 08/493,486

**Proposed Amendment For
Discussion Purposes Only**

an electric heating element coupled to said frame;

a terminal assembly connected to said heating element for conducting an electric current thereto, said terminal assembly including a first portion and a second portion, said first portion connected to said heating element and passing through said aperture in said recessed body portion, said second portion removably engageable with said first portion to connect said heating element to a power source; and

grounding means electrically connected to said heating element.

2. (AMENDED) The heating device of Claim 1 wherein said [terminal assembly includes a first portion connected to said heating element and a second portion removably engaged with said first portion, said second portion passing through an opening in the engine and engaging the first portion of the terminal assembly] second portion passes through an opening in the engine and engages said first portion of said terminal assembly when the heating device is coupled for operation with the engine.

Claim 3, line 1, delete "2" and insert therefor --1--.

Claim 6, line 4, delete "perpendicular" and insert therefor --perpendicularly--.

Claim 11, line 4, delete "perpendicular" and insert therefor --perpendicularly--.

Claim 13, line 3, delete "perpendicular" and insert therefor --perpendicularly--.

Claim 18, line 10, delete "perpendicular" and insert therefor --perpendicularly--.
